Robin Sample

Software Developer | Hamburg, Germany | robin.sample@example.com
(Fictional demo CV. The person, companies and university do not exist.)

Summary

Software developer with 3 years of professional experience building backend services in Java, plus Python for data scripts. I want to move into AI engineering and built a small chatbot prototype with an LLM API at a hackathon.

Experience

Software Developer, Havenlight Insurance IT GmbH, Hamburg | 09/2023 - today

- Develop REST APIs in Java with Spring Boot and a PostgreSQL database for an internal claims system.
- Write Python scripts that clean and import data from partner files.
- Package services with Docker; changes are built and tested with GitHub Actions and deployed to an on-premises server.

Projects

Hackathon 2025: a chatbot prototype that answers questions about insurance terms, using an LLM API (no retrieval, no evaluation).
